EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

in claims 8 and 12 replace "in particular" with - - including - - .

This change is to overcome a possible rejection under 35 USC 112, second paragraph, wherein the broad recitation of liquid followed by water might be construed to be a narrower limitation, which is not permitted under current Office practice.

The following is an examiner's statement of reasons for allowance: the claimed invention with the features of a position of the web is controlled in the area of a trough of a concave curvature (as viewed in the longitudinal section) by at least one sensor which operates in a non-contact manner, a web tensed, due to the effect of gravity, in a treatment area localized by rollers, and nozzle fields for generating said impact jets exert a positionally stabilizing effect on the web by deploying a planar force onto the web which, similar to a spring, increases with decreasing distance between the web and the nozzle field, the magnitude of the stabilizing force depending on the dynamic pressure of the blowing fluid at the nozzle output of the impact jets is considered an non-obvious improvement over the closest prior art, Rogne et al. (US 6,049,995). Other prior art cited in this action contains some claimed elements and features, but it is

Art Unit: 3749

considered that no motivation exists for combining those features with what is considered the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Stephen Gravini whose telephone number is 703 308 7570. The examiner can normally be reached on normal weekday business hours (east coast time).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ira S. Lazarus can be reached on 703 308 1935. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
